

DROPSTMTER

REDUCING NIPPLE

- **RATED FOR 300 PSI WORKING PRESSURE.**
- **LABOR & COST SAVING** by eliminating the reducing coupling and labor make-up. Same overall length as a standard nipple and reducing coupling assembly.
- **EASY TO INSTALL** with sizable wrench flats. If necessary, a special deep socket is available to ease installation or removal.
- **UL LISTED** in accordance to UL 1474 5th edition with qualifying tests up to 1500 psi.
- **FM APPROVED** in accordance to FM Class 1631 with qualifying tests up to 1200 psi.
- **PRECISION MANUFACTURED** from high strength carbon steel with threads conforming to B1.20.1 NPT or ISO7-1.
- **FULLY TRACEABLE** with a lot number marked on each unit.
- **QUALITY.** All material batches are checked by independent laboratories to insure all material standards are met and each unit is pressure tested prior to shipment.
- **LEED FRIENDLY.** Made in USA from up to 85% recycled steel.

US Patent No. 9,586,253

PRODUCT /PRICING: Subject to change without notice; check our website for the most current pricing. All sales are subject to Aegis' Terms and Conditions of Sale. Sales subject to sales tax unless current exemption is provided and maintained. Orders accepted on the basis of prices in effect at the time of order. Sold only in box quantities; for less than box quantity a 25% surcharge on order may apply.

SHIPPING: All prices are F.O.B. shipping point. All products are shipped at buyer's risk. Aegis makes every effort to ensure your shipment will be received in good condition, but in transit damage or loss may occur. All shipments must be carefully examined before signing the delivery receipt. If damage or loss is apparent, notation on the delivery receipt should be made and driver initialed. If possible, take photos of the shipment in the "as received" condition. Any claims should be reported to carrier and Aegis within 48 hours of delivery. All orders are shipped via Aegis' carrier of choice unless otherwise arranged.
